Simba AI

*Mobile Developer &
UI/UX Design*
Feb 2025 - Sep 2025

Collaborated with multidisciplinary teams to conduct user research and align product transformations with business strategies, while authoring comprehensive technical documentation to ensure seamless project handovers.

Independently spearheaded the end-to-end creation of high-fidelity Figma mockups and design systems while developing cross-platform React Native applications and executing targeted frontend code refactoring to enhance system scalability.

Lish AI labs

*Lead Developer &
Design*
Feb 2023 - March 2026

Instrumental in establishing a new department, defining its role and presented a two Year vision for the department

Led a team to create the Cloud worker Monitoring and Dashboard responsible for ideation, team coordination, design direction, front end development, and visual design

Lish AI labs

Software Engineer
Sept 2022 - Jan 2023

Delivered development ready prototypes, design systems, and annotated documentation through an Agile cadence for 3+ clients across multiple industries

Worked on cross functional teams for various clients conducting user research, uncovering opportunities for product transformation and business strategy

Department of Health Services, Nakuru County, Internship

May 2022 - Aug 2022

Provided technical assistance and support to the Department of Health team, ensuring seamless operations and resolving technical issues promptly

Provided constructive feedback on projects, helping the development team refine and improve their concepts and execution
